*****---------- PROBLÈME DES ACCOUCHEMENTS: UNE APPROCHE DE SOLUTION—----------******

Le problème des accouchements est un problème relationnel (les questions de santé mentale sont en jeu) et professionnel (les questions d'environnement de travail sont surlignées).

Si tu as des Collègues de Genre femmes qui font des accouchements multiples à d'autres hommes, il y a un problème de disponibilité du corps professoral et de conflits d'intérêt

(Cela concerne les ressources humaines).

L'exemple de certaines femmes accédant à des Hautes fonctions de Cadres est important.

Il y a des services que certaines collègues (femmes) peuvent faciliter tandis que d'autres ne peuvent pas (même si on change l'équipe pour permettre le flux de données régulier et une continuité du travail de manière permanente).

Donc, il faut vérifier un consentement avec le Collège Professoral Historique en Exercice (dans l'historique de vie de la femme concernée) avant d'autoriser l'accouchement.

A titre Personnel, si dans mon équipe au CHUM je travaille avec une femme pendant 7ans, et qu'elle dispose d'une certaine autorité dans l'exercice de ses fonctions à guider certains postes élites au CHUM, je suis d'avis qu'il y a un conflit d'intérêt, et il lui faut un avis écrit du Collège Médical en Exercice avant tout accouchement.

C'est une recommandation, c'est n'est pas obligatoire. C'est valable pour beaucoup d'institutions, les Universités, les églises, si tu apprends qu'une soeur de choeur d'église a fait des accouchements, il y a aucun problème seulement et seulement si le Collège de Prêtrise des femmes et des Hommes a signé un consentement écrit unanime.
